How to use this at home

Ask your child's speech therapist which words to start with.

- ① Keep it close. It only helps if it is there when your child wants to say something.
- ② Talk and point. Touch the words as you say them: "want ... more?" "go ... out!" This is how your child learns where the words are.
- ③ Short is plenty. One or two words at a time.
- ④ Wait. After you point, wait a few seconds. Give your child time to look, point, or try.
- ⑤ Every try counts. A look, a reach, a sound, or a touch near the word: answer it like a word.
- ⑥ Don't test. Skip "show me 'eat'". Use the board to talk about what is happening right now.
- ⑦ Use it in routines: meals, bath, play, the car. The same words, again and again.

Daylight Saving Bedtime Shift

Clocks go back one hour on Sunday, November 1, 2026, at 2:00 AM.

HOW IT WORKS

Starting Wednesday, put your child to bed 15 minutes later each night. By Saturday, bedtime is one hour later. On Sunday the clock goes back, so your usual bedtime feels the same as Saturday did. Keep it steady all week. Go slower if you need to.
